1988/1989 to 1997/1998 wine years: permanent abandonment premiums of wine-growing areas (amend. regul. 1442/88/EEC)

1997/0226(CNS) - 03/09/1997 - Legislative proposal

OBJECTIVE: the proposal for a regulation seeks to increase the quota allocated to Germany for the application of the permanent abandonment premium scheme in respect of wine-growing areas.
CONTENT: the number of hectares allocated to Germany (50 ha) has proved to be too small, preventing distribution in line with the requirements of the various wine-growing regions. It is therefore proposed to increase the acreage allocated to Germany by 950 ha. In order to avoid increasing the total maximum surface area provided for in the basic regulation, the quota allocated to Spain will be reduced by 950 ha.
