

EC own resources, controls: powers and obligations of the Commission agents (regul. 1552/89/EEC/EURATOM)

1997/0016(CNS) - 05/12/1997 - Modified legislative proposal

The Commission has incorporated the following amendments to take account of the opinions of the Court of Auditors and the European Parliament: - amendment of the title of the new regulation so that it refers specifically to all own resources (as all of them are covered by the new rules); - amendment to specify the provisions applicable to VAT and GNP own resources, with a view to having common and coherent arrangements for all own resources; - extension of the concept of authorized agents to cover seconded national experts.
