Motor vehicles, interiors fittings: electrical command of windows...(amend. direct. 74/60 /EEC)

1998/0089(COD) - 02/04/1998 - Legislative proposal

OBJECTIVE: the adoption of requirements with the aim of eliminating the danger to children of accidents which can occur when closing power-operated windows in private cars. SUBSTANCE: the Commission proposes to introduce in Directive 74/60/EEC requirements concerning power-operated windows, roof panel systems and partition systems for vehicles in the category M1 (passenger cars). It is proposed that these provisions will apply: - from 1 October 1999 for all new vehicle types; - from 1 October 2000 for all new vehicles. It is also proposed to align the administrative provisions of Directive 74/60/EEC with those of Directive 70/156/EEC concerning type-approval, so that type-approval can be computerized.
