# Solid fuels: multiannual programme of technological actions for an efficient and clean use 1998-2002

1997/0372(CNS) - 20/10/1998 - Modified legislative proposal

The Commission's amended proposal incorporates the European Parliament's amendment relating to the need to ensure that promotion of clean coal technologies should be applied equally to domestic and small scale commercial and industrial boilers as well as large electrical power generation plant. During the first year of the programme, the Commission shall report to the Parliament on the extent and type of existing solid fuels generating capacity.
