

Trans-European networks for the electronic interchange of data between administrations IDA II: interoperability

1997/0341(COD) - 15/12/1998 - Modified legislative proposal

The amended proposal incorporates, in full or in substance, 6 of the 11 amendments adopted by the European Parliament at first reading. The amendments accepted by the Commission contribute to a clearer motivation of the decision, to enhancing the orientation of the IDA programme towards market-based solutions and to improving both its structural and technical coherence and to making it more transparent. It should be noted that the Commission did not incorporate amendments relating to the following: - taking cultural specificity into account with regard to network access; - the revision of the decision according to the codecision procedure; - committee procedures.
