Trans-European energy networks, guidelines: list of projects of common interest

1998/0284(COD) - 24/03/1999 - Modified legislative proposal

The Commission's amended proposal integrates all three of the amendments adopted by the European Parliament as they stand. They will widen the definition of one project of the present list of projects of common interest and add one new project to the list. Both changes, extending as they do the electricity networks of Spain and Greece respectively, are fully in line with the objectives of the trans-European Energy Networks.
