Waste: common rules to apply to shipments to non OECD countries

1995/0029(SYN) - 13/04/1999 - Modified legislative proposal

The Commission's re-examined proposal integrates a certain number of amendments approved by the European Parliament in its second reading, in particular that requiring that the Commission keeps the countries covered by the Regulation regularly informed of any changes made to Annexes A and B. The Commission accepts the amendment concerning the change of deadline applicable to the regular re-examination. However, it did not support the proposal seeking that the Parliament in the framework of the re-examination process should be consulted, because it continues to favour Article 113 as the sole legal base.
