Protection of workers from exposure to carcinogens or mutagens at work. Codification

1999/0085(COD) - 08/04/1999 - Legislative proposal

PURPOSE: the legislative consolidation of Council Directive 90/394/EEC on the protection of workers from the risks related to exposure to carcinogens at work so as to make it clearer and more accessible to the citizen. CONTENT: The new Directive will supersede the various directives incorporated in it; their content is fully preserved, and they are brought together with only such formal amendments as are required by the codification exercise itself.
