

Air pollution : national emission ceilings for pollutant gas (SO₂, NO_x, NH₃, VOCs)

1999/0067(COD) - 10/11/2000 - Commission communication on Council's position

The Commission is able to accept the common position, which was agreed unanimously by the Council. The Commission considers that Council's commitment to meeting the interim objectives of the proposal by 2010 has been clearly signalled by its acceptance of Parliament's amendment moving those objectives from an Annex to Article 5.
