Imports of certain products of animal origin, fishery products and live bivalve molluscs

1994/0141(CNS) - 14/12/1994 - Final act

Council Decision 94/941/EC defined the way in which the Commission drew up, on a provisional basis and pending the definitive Community lists, provisional lists of third country establishments from which Member States were authorised to import certain products of animal origin(e.g. fresh poultrymeat, meat products, wild game meat, crude milk or heat-treated milk, dairy products), fishery products or live bivalve molluscs. SUBSTANCE: - Until 1 March 1995, Member States were authorised to maintain the existing conditions for the import of fishery products, and in particular the specimen health certificate; - The lists of approved establishments and, where necessary, approved fish processing ships should be updated every two months.
