

Maritime safety: registration of persons sailing on board passenger ships

1996/0281(SYN) - 11/12/1997 - Commission communication on Council's position

The Commission is of the opinion that the text of the common position is acceptable since it respects the basic principles of the original proposal and provides added value by its clarifications. Its provisions introduce more flexibility without affecting the safety concern and the need for an efficient handling of the aftermath of any accident that might occur in non-protected sea areas.
