Aeronautical industry and environment: civil subsonic jet aeroplanes, registration and use. Civil aviation Convention

1998/0070(SYN) - 27/11/1998 - Commission communication on Council's position

The Commission supports the Common Position since it is fully in line with the objective to prevent a further deterioration of the noise situation around Community airports. Moreover, the Common Position includes the amendment proposed by the European Parliament to convert the Directive into a Regulation, which will ensure a timely entry into force and enhance its effectiveness.
