Organic production of agricultural products and indications referring thereto on agricultural products and foodstuffs

1993/1040(CNS) - 19/04/1994 - Text adopted by Parliament, 1st reading/single reading

The European Parliament gave its approval in principle to the amended proposal for a regulation on the labelling, production and control of agricultural products and foodstuffs carrying indications referring to organic production methods. However, it called on the Commission to present the regulations on organic animal production on 1 January 1995 rather than 30 June. It also called for the Commission to present a proposal on a Community organic production symbol to the Council by 1 July 1995.
