Landfill of waste: minimum standards

1991/0335(SYN) - 28/10/1992 - Text adopted by Parliament, 1st reading/single reading

Parliament's position: Parliament tabled amendments with a view to abolishing the mixed disposal of waste and monitoring the production of methane, of which refuse tips are a major source; organising training to give all those involved in operating refuse tips a uniformly high level of skills; and introducing a form of insurance in addition to the proposed financial guarantee for the Commission.
