Inter-operability of the European high-speed train network

1994/0112(SYN) - 19/01/1995 - Text adopted by Parliament, 1st reading/single reading

The European Parliament approved the proposal for a directive. The amendments by the European Parliament call for: - easier access to the entire European network of high-speed trains for users and for the interoperability of ticketing, reservation and information systems to be guaranteed; - Switzerland and the central and eastern European countries to be involved in achieving interoperability; - training programmes for drivers and maintenance staff of high-speed trains to be harmonised; - the Commission to report to the Council and the European Parliament on progress achieved towards the interoperability of the network every two years.
