

EAGGF Guarantee section, control of expenditure: member states' action programmes

1995/0244(CNS) - 28/03/1996 - Text adopted by Parliament, 1st reading/single reading

By adopting the report by Mr Salvador Garriga Polledo (PPE, E), Parliament endorsed the Commission proposal on the implementation of Member States' action programmes on control of EAGGF Guarantee Section expenditure. The EP supports the Commission's new approach whereby most of the funds will be used to finance proposals likely to enhance the range and quality of fraud prevention measures. It is suggesting, for example, that the Community financial contribution should not exceed 80%. Multi-annual or innovative programmes, those aimed at providing better training and information for inspectors, and programmes designed to intensify the exchange of information and cooperation among Member States should be treated as the priorities. Lastly, the EP is calling on the Commission to report to the EP and the Council on the implementation of the Regulation, in the first instance at the end of its second year in force.
