Support system for producers of certain arable crops (amend. Regul. 1765/92/EEC)

1994/0217(CNS) - 30/11/1994 - Text adopted by Parliament, 1st reading/single reading

Parliament approved the Commission proposal subject to three amendments. These amendments aimed to: - enable Member States to apply voluntary self restraint with regard to arable areas likely to be guaranteed by setting target sizes; - enable Member States which had regionalised their base area to aggregate between regions the sown areas for which aid had been claimed; - enable the Commission to authorise the Member States to take appropriate measures to avoid an excessive overrun of the maximum guaranteed area. (The Commission did not accept this amendment.)
