Statistics on the trading of goods between Member States: nomenclature, SLIM, Intrastat (amend. regul. 3330/91/EEC)

1997/0162(COD) - 01/04/1998 - Text adopted by Parliament, 1st reading/single reading

In adopting the report by Mrs Astrid LULLING (EPP, L) Parliament approved the proposal for a regulation on the statistics relating to the trading of goods between Member States. However it called for the administrative burden of the provisions contained in this directive to be limited for small and medium-sized enterprises. In order to improve the quality of the statistics it also called for the collection of information on trade flows not only at national but also at regional level.
