Public procurement: services, supply and public work contracts (amend. Directives 92/50/EEC, 93/36/EEC, 93/37/EEC)

1995/0079(COD) - 14/05/1997 - Text adopted by Parliament, 2nd reading

The European Parliament adopted the recommendation for second reading by Mr Werner LANGEN (PPE, D). Since many of the amendments to the proposal were accepted by the Commission and Council, Parliament approved the common position subject to a few secondary amendments. It called, for example, for the Commission to make available to SMEs the training and information materials they needed to participate fully in the changed market.
