Support system for producers of certain arable crops (amend. Regul. 1765/92/EEC)

1995/0017(CNS) - 19/05/1995 - Text adopted by Parliament, 1st reading/single reading

Parliament approved the Commission proposal with the following amendments: - only fields which could be proved to have been recently used for crop production could qualify; - the proposed measures should be applied first and foremost to those areas which came under Objectives 1 and 5b and those which had suffered serious environmental damage (industrial pollution or fires), severely eroded areas and flood plains; - the measures should be implemented through regional bodies.
