EC/Senegal fisheries agreement: protocol for the period from 2nd October 1994 to 1st October 1996

1994/0269(CNS) - 19/05/1995 - Text adopted by Parliament, 1st reading/single reading

The European Parliament approved this proposal for a regulation with the following amendments: - during the last year in which this protocol was in force and prior to entering into any agreement for its renewal, the Commission should submit to the Council and the European Parliament a report on the conditions of application of the fisheries agreement. On the basis of that report (and following consultation with the European Parliament) the Council should mandate the Commission to negotiate a new protocol relating to the implementation of this agreement; - the Commission should also submit a study exploring the possibility of including in the total financial envelope for the future fisheries protocol a greater requirement to invest in the modernisation of non-industrial local fishing infrastructures. The ECU 200 000 of aid to non-industrial fishing would be allocated in the future to fisheries infrastructures: supplying fishing equipment, running a socio-economic monitoring centre, establishing research programmes and supporting a medical and social programme.
