Multi-annual Community action concerning the development of ISDN as a trans-European network

1993/0495(COD) - 13/06/1995 - Text adopted by Parliament, 2nd reading

In adopting the recommendation for second reading by Mr Glante, the European Parliament amended the Council's common position by emphasising the universal nature of the ISDN (Integrated Services Digital Network), which should be accessible to both SMEs and large companies and which should also operate on a cross-border basis. The EP also recommended actions on staff training with regard to the distribution and availability of EURO-ISDN terminals, particularly among SMEs.
