Quality assurance in higher education: European cooperation

1997/0121(SYN) - 28/05/1998 - Text adopted by Parliament, 2nd reading

In adopting the recommendation for second reading by Mrs Renate Charlotte HEINISCH (EPP, D) Parliament regretted that the Council had not considered it appropriate for the Commission to oversee the creation of a European quality assurance network. It introduced only one amendment into the common position calling for encouragement and help for higher education institutions to use quality assurance as a means of improving the quality of teaching and learning as well as of training in research.
