# Setting up an employment and labour market policy Commitee

1996/0097(CNS) - 24/10/1996 - Text adopted by Parliament, 1st reading/single reading

Parliament adopted the report by Mr Ioannis THEONAS (GUE/NGL, G) on the setting up of an Employment and Labour Market Policy Committee. Whilst approving the Commission proposal, the EP put forward amendments aimed essentially at strengthening coordination between the Member States' employment policies, and spelling out the need for regularly consulting the two sides of industry at Community level as well as cooperating more closely with Parliament. The EP also hoped that employment trends in the Community would be monitored using a range of common indicators, and called for the report and recommendations drawn up by the committee to be forwarded to it.
