Wine: common organisation of the market COM (amend. regul. 822/87/EEC)

1997/0161(CNS) - 20/10/1997 - Final act

OBJECTIVE: to amend Regulation (EEC) No 822/87 on the common organization of the market in wine. COMMUNITY MEASURE: Council Regulation (EC) No 2087/97. CONTENT: the Regulation adopted by the Council: - deletes malic acid from the list of oenological practices; - provides for permanent authorization to use a deacidification practice; - ends the preferential treatment of installations using rectified concentrated grape musts which started production before 30 June 1982; - amends the entry price control measures for grape juices and musts: provision is made for a system which allows respect for entry prices to be checked either on the basis of import price controls consignment by consignment or using a flat-rate import value to be calculated on the basis of price quotations in the country of origin, in line with detailed rules to be determined. ENTRY INTO FORCE: 2 November 1997.
