Free movement of goods: elimination of obstacles to trade, Commission intervention mechanism

1997/0330(CNS) - 05/11/1998 - Text adopted by Parliament, 1st reading/single reading

In adopting the report by Mr Peter SKINNER (PSE, UK) on removing certain obstacles to trade, Parliament rejected virtually all the amendments tabled by the Committee on Economic and Monetary Affairs and Industrial Policy. Only three of the 14 amendments tabled were adopted. Except for Amendment 1, reaffirming that freedom of movement for workers is one of the fundamental principles of the Community, all the other amendments seeking to include free movement of workers in the proposal for a regulation in parallel with free movement of goods were rejected.
