Agriculture, Community aid schemes: integrated administrative and control system IACS (amend. Regul. 3508/92/EEC)

1996/0122(CNS) - 13/12/1996 - Text adopted by Parliament, 1st reading/single reading

In adopting the report by Mr Salvador GARRIGA POLLEDO (PPE, S), Parliament approved the proposal for a Council Regulation establishing an integrated administrative and control system for certain Community aid schemes. In its amendments, it called on the Member States to establish, not later than 1 January 1998, central databases in which, together with the registration number, the animal's sex, breed and date of birth, and details of animals arriving at or leaving the farm should be recorded. In addition, the Commission was called upon to report to Parliament and the Council before the end of the first half of 1997 and thereafter annually as to whether the integrated system is operating effectively in all Member States and whether a comparable level of protection of the Community's financial interests is consequently being achieved in all Member States.
