Gender mainstreaming in the European Parliament

2002/2025(INI) - 13/03/2003 - Text adopted by Parliament, single reading

The European Parliament adopted a resolution on gender mainstreaming in the European Parliament drafted by Lissy GRONER (PES, Germany). (Please see the document dated 19/02/03.) With regard to the EP Secretariat, Parliament called for the implementation of a coherent and comprehensive framework for gender mainstreaming, in close cooperation with the DG for Personnel and COPEC, and with the involvement of staff representations. This policy plan should co-ordinate all existing initiatives, indicate objective and priorities and the means of achieving them. It should be complemented by data and gender statistics, indicators, clear targets and benchmarks.
