Resolution on a monitoring centre for industrial change

2000/2595(RSP) - 06/09/2000 - Text adopted by Parliament, topical subjects

The European Parliament endorses the resolution tabled by the Liberal Group rejecting the idea of setting up a Monitoring Centre on Industrial Change. The resolution takes the view that EU institutions are well-able to monitor developments through existing procedures and recognises the need to promote best practices in tackling the adverse impact of industrial change.
