Internal market: sales promotions and consumer protection, transparency

2001/0227(COD) - 24/09/2004

The Council held a short debate on the proposal for a Regulation concerning sales promotions in the Internal Market. The Presidency concluded that, as it was impossible to reach agreement at this stage, the file should be referred back to the Permanent Representatives Committee for further examination with a view to enabling the Competitiveness Council to reach agreement at its meeting of 25 and 26 November.
