Safety and health at work: exposure of workers to electromagnetic fields

1992/0449C(COD) - 22/04/2004 - Commission opinion on Parliament's position at 2nd reading

The Commission states that it is able to accept all of the amendments adopted at Plenary. They concern in particular: - reference to the consultation and participation of workers; - content of the information and training which the worker and/or his representative must receive; - reinforce the provisions on health surveillance; - sanctions to be applicable in the event of infringement of national legislation; - transparency.
