Aquaculture, animal health: Community financial contributions in the veterinary field for fighting against animal diseases (amend. Decision 90/424/EEC)

2005/0154(CNS) - 21/03/2006

The committee adopted the report by Heinz KINDERMANN (PES, DE) approving the proposed Council decision amending Decision 90/424/EEC on expenditure in the veterinary field. It tabled one amendment - under the consultation procedure - stipulating that the Decision should apply from 30 June 2007, rather than from 1 January 2007 as orginally proposed. MEPs argued that this would allow more time for the related decision on animal health requirements for aquaculture animals and the prevention and control of certain diseases in such animals (see factfile CNS/2005/0153) to be transposed following its adoption in mid-2006.
