Accelerated phasing-in of double-hull or equivalent design requirements for single-hull oil tankers

2006/0046(COD) - 22/11/2006

The committee adopted the report by Fernand LE RACHINEL (NI, FR) approving - under the 1st reading of the codecision procedure - the proposed regulation on the accelerated phasing-in of double-hull or equivalent design requirements for single-hull oil tankers. It adopted just one drafting amendment.
