Wheeled agricultural or forestry tractors: maximum design speed (repeal. Directive 74/152/EEC). Codification

2006/0219(COD) - 08/11/2006 - Legislative proposal

PURPOSE: to codify provisions establishing the maximum design speed of and load platforms for wheeled agricultural or forestry tractors.

PROPOSED ACT: Directive of the European Parliament and of the Council.

CONTENT: the purpose of this proposal is to codify EU provisions on the maximum design speed of and load platforms for wheeled agricultural or forestry tractors as set out in Directive 74/152/EEC. In codifying acts that have been amended frequently the EU is seeking to both simplify and clarify EU legislation.

Given that no changes of substance have been made to the instruments affected by the codification exercise this proposal will be the subject of an accelerated procedure. The new Directive will supersede the various acts incorporated in it. If fully preserves the content of the acts being codified and hence does no more than bring them together, with only such formal amendments as are required by the codification exercise itself.
