Final act

Directive 1995/0023
OJ L 243 11.10.1995, p. 0007 Summary

Fresh meat: health conditions for the production and marketing

1994/0176(CNS) - 22/06/1995 - Final act

OBJECTIVE: to amend Directive 64/433/EEC with a view to permitting trade in cuts of all types of offal. COMMUNITY MEASURE: Directive 95/23/EC amending Directive 64/433/EEC on conditions for the production and marketing of fresh meat. SUBSTANCE: . Clarification of the requirement to indicate the official veterinary approval number on the accompanying commercial document or certificate for meat from approved cold stores; . Simplification of the provisions relating to the accompanying document or certificate. . In light of the application of the maximum handling limits provided for in Article 4 for low-capacity slaughterhouses and cutting plants, the directive aligns these maximum quantities with those adopted by the Council in Directive 92/120/EEC and extends the provisions laid down for low-capacity establishments to low-capacity cold stores; . Low-capacity establishments must be authorised to market their products throughout the Community and to stamp their meat with the oval stamp; . Member States may derogate from the weekly handling limits where justified to take account of particular circumstances; . Member States must comply with this Directive no later than 1 July 1995.

Fresh meat: health conditions for the production and marketing

1994/0176(CNS) - 07/04/1995 - Text adopted by Parliament, 1st reading/single reading

In approving the Schnellhardt report, the European Parliament approved the Commission proposal.

Fresh meat: health conditions for the production and marketing

1994/0176(CNS) - 23/11/1994 - Economic and Social Committee: opinion, report

Fresh meat: health conditions for the production and marketing

1994/0176(CNS) - 15/07/1994 - Legislative proposal

In order to take account of the practical difficulties encountered in applying the hygiene requirements laid down in Directive 64/433/EEC, certain technical amendments were proposed with a view to permitting trade in cuts of all types of offal, clarifying the obligation to indicate the official veterinary approval number on the accompanying commercial document or certificate for meat from authorised cold stores, and clarifying the provisions relating to the accompanying document or certificate. In light of the application of the maximum handling limits laid down in Article 4, it was proposed that these maximum levels be aligned with those adopted by the Council in Directive 92/120/EEC for low-capacity slaughterhouses and cutting plants, and to extend the arrangements for small establishments to small cold stores. Small establishments should be authorised to market their products throughout the Community and to stamp their meat with the oval stamp. Finally, it was proposed that the Member States should be authorised, in justified cases, to exceed the maximum weekly handling limits to take account of specific circumstances.

Fresh meat: health conditions for the production and marketing

1994/0176(CNS) - 12/06/1995 - Modified legislative proposal

The Commission's amended proposal took over most of the amendments adopted by the European Parliament. However, it did not accept the establishment of a deadline of 31 December 1997 for the end of the derogations provided for by Directive 91/498/EEC (modernisation of establishments) nor the possibility of derogations to the trade regulations for establishments located in frontier regions.
