1995/0050(CNS) - 22/02/1995 - Legislative proposal

Wine: marketing year 1995/1996. Pending the implementation of the new COM in wine, the Commission proposed extending, for the 1995/1996 marketing year, certain deadlines which were established by regulation and which related to: - the submission of reports to Parliament and the Council on: . the maximum sulphur dioxide levels of wine, accompanied - where appropriate - by proposals, . the link between structural measures and compulsory distillation. - the determination of the rules for calculating the quantities to be distilled for each wine-growing region (uniform percentage and reference year) which were accepted following the Dublin compromise, and which had been postponed until 31.08.1995, together with the derogation granted for the specific application of the compulsory distillation procedures in Greece; - the delimitation of the trial period for certain de-acidification practices now approaching expiry, in order to be able to reach a definitive decision on these techniques; - the delimitation of the period during which it is possible to set aside, for campaigns to promote the consumption of grape juice, part of the aid intended for the use of grape musts for the purposes of manufacturing grape juice, which was extended the previous year until 31.08.1995.
