Final act

Regulation 1995/2800
OJ L 291 06.12.1995, p. 0001 Summary

Maximum guarantee area for oleaginous plants, 1995 enlargement

1995/0135(CNS) - 09/06/1995 - Legislative proposal

The proposal for a regulation aimed to allocate the national reference areas for oilseeds for Austria (147 000 hectares), Finland (70 000 hectares) and Sweden (137 000 hectares). For Austria and Finland, aid was calculated on the basis of oilseed production, whilst for Sweden aid was calculated on the basis of cereal production.

Maximum guarantee area for oleaginous plants, 1995 enlargement

1995/0135(CNS) - 27/10/1995 - Text adopted by Parliament, 1st reading/single reading

In adopting the report by Mr PARIGI (NI, I), Parliament approved, without amendment, the proposal for an amendment of the regulation.

Maximum guarantee area for oleaginous plants, 1995 enlargement

1995/0135(CNS) - 29/11/1995 - Final act

- OBJECTIVE: to modify the Community scheme applying to oilseed in order to take account of the accession of Austria, Finland and Sweden. - COMMUNITY MEASURE: Regulation 2800/95/EC amending Regulation 1765/92/EEC establishing a support scheme for producers of certain arable crops. - SUBSTANCE: The Regulation adapts the Community's Maximum Guaranteed Area (MGA) as applied to oilseed and allocates a National Reference Area (NRA) to the three new Member States. This corresponds to the area actually devoted to oilseed crops during the three years which preceded accession, that is to say 147,000 ha. for Austria, 70,000 ha. for Finland and 137,000 ha. for Sweden. As a result, the Community MGA increases from 5,128,000 to 5,482,000 hectares. - ENTRY INTO FORCE: 09/12/1995.

Maximum guarantee area for oleaginous plants, 1995 enlargement

1995/0135(CNS) - 29/11/1995

The Council adopted, with the Finnish delegation voting against, the Regulation amending the Community arrangements applicable to oilseeds in order to take account of the accession of Austria , Finland and Sweden . In amending Regulation (EEC) No 1765/92 establishing a support system for producers of certain arable crops, the Council has adapted the Community maximum guaranteed area (MGA) in the oilseed sector and allocated national reference areas (NRAs) to the three new Member States. Those areas correspond to the area actually used for the cultivation of oilseeds over the three years preceding accession, i.e. 147 000 ha for Austria , 70 000 ha for Finland and 137 000 ha for Sweden . The Community MGA accordingly increases from 5 128 000 ha to 5 482 000 ha. Explanation of Finland’s vote: ‘Finland considers that the Blair House Agreement may be interpreted in a way that the oilseed base area for Finland can be based on a production area which reflects the 15% compulsory set--aside rate used during the reference period. Therefore, the national reference base area should be set at 82 350 ha. Therefore Finland votes against the proposal’.
