Final act

Regulation 1995/2336
OJ L 236 05.10.1995, p. 0001 Summary

Set-aside requirement for the 1996-1997 marketing year (derog. regul. 1765/92/EEC)

1995/0211(CNS) - 22/09/1995 - Text adopted by Parliament, 1st reading/single reading

The European Parliament approved this proposal for a regulation with the following amendments: - any other form of compulsory set-aside must be applied according to the percentage of compulsory set-aside based on rotation plus a third of this percentage (this rate may be adjusted for cases

covered by Regulation No 1541/93/EEC); - the percentage of compulsory set-aside must be fixed each year from the 1997/98 marketing year and the percentage of land to be withdrawn fixed in July of the previous year. If that were not the case, this percentage would remain the same as the previous year.

Set-aside requirement for the 1996-1997 marketing year (derog. regul. 1765/92/EEC)

1995/0211(CNS) - 26/09/1995 - Final act

OBJECTIVE: To reduce the set-aside requirement (rotational set-aside and any other form of set-aside not based on rotation) to 10% for the 1996/97 marketing year only. COMMUNITY MEASURE: Council Regulation (EC) No 2336/95 derogating from Regulation (EEC) No 1765/92 establishing a support system for producers of certain arable crops as regards the set-aside requirement for the 1996/97 marketing year. SUBSTANCE: The support system for producers of certain arable crops established under Regulation No 1765/92/EEC stipulates that, to benefit from compensatory payments, producers must set aside a percentage of their land according to market developments. On the basis of a forecast for 1995/96, the equilibrium sought between production and internal and external outlets may be maintained through an increase in Community production by returning a certain quantity of fallow land to cultivation. As a result, commencing not later than 15 January 1996, this regulation fixes temporarily (and for the 1996/97 marketing year only) the two rates for set-aside land, namely the rotational set-aside and other forms of set-aside not based on rotation, at 10% compared to 12% for the previous year. ENTRY INTO FORCE: 12 October 1995. The regulation applies to the 1996/97 marketing year only.

Set-aside requirement for the 1996-1997 marketing year (derog. regul. 1765/92/EEC)

1995/0211(CNS) - 26/07/1995 - Legislative proposal

OBJECTIVE: To reduce the compulsory rotational set-aside to 10% for the 1996/97 marketing year only. SUBSTANCE: The support system for producers of certain arable crops established under Regulation No 1765/92/EEC stipulates that, to benefit from compensatory payments, producers must set aside a percentage of their land according to market developments. For the 1995/96 marketing year, this rate had been fixed at 12% (Regulation No 2990/94/EC). Since the introduction of this system, there is greater equilibrium in the cereals market due to the fall in production and the rise in internal consumption, resulting in a significant reduction in the intervention stocks of cereals. On the basis of a forecast for 1995/96, the equilibrium sought between production and internal and external outlets may be achieved with a production of 182 million tonnes in 1996. According to the Commission, this objective may be attained by returning approximately 700 000 hectares to cultivation. The Commission therefore proposed in this regulation that the set-aside rate be fixed at 10% temporarily (for the 1996/97 marketing year alone) compared to 12% for the previous marketing year.
