Final act

Decision 1996/0253
OJ L 086 04.04.1996, p. 0072 Summary

Euratom Framework Programme research and training 1994-1998: adjustment of funding following the 1995 enlargement

1995/0812(CNS) - 26/04/1995 - Legislative proposal

The proposal for a decision aimed to increase the amounts earmarked under the framework programme to finance Euratom research and training activities (1994-1998) following the accession of Austria, Finland and Sweden. It was proposed that the Community's financial contribution should total ECU 1 342 million (compared to ECU 1 254 million), including ECU 757 million as a rough guide for the period 1994-1996 and ECU 585 million for the period 1997-1998. The amounts (in millions of ecus) would break down as follows: - Nuclear fission safety: 443 - Controlled nuclear fusion: 895

Euratom Framework Programme research and training 1994-1998: adjustment of funding following the 1995 enlargement

1995/0812(CNS) - 04/03/1996

The Council adopted the Decision amending Decision 94/268/Euratom on a framework programme for Community research and training activities for the European Atomic Energy Community (1994-1998).

Euratom Framework Programme research and training 1994-1998: adjustment of funding following the 1995 enlargement

1995/0812(CNS) - 04/03/1996 - Final act

OBJECTIVE: to increase the amounts earmarked under the framework programme to finance Euratom research and training activities in the period from 1994 to 1998, following the accession of Austria, Finland, and Sweden. COMMUNITY MEASURE: Council Decision 96/253/Euratom adapting Decision 96/253/Euratom. SUBSTANCE: the amount estimated to be necessary to finance the Community contribution is ECU 1 336 m (compared with the previous figure of ECU 1 254 m), divided into provisional figures of 769 m for the period from 1994 to 1996 and ECU 567 m for the years 1997 and 1998. The amounts (in millions of ecus) break down as follows: - Nuclear fission safety: 441 - Controlled nuclear fusion: 895.

Euratom Framework Programme research and training 1994-1998: adjustment of funding following the 1995 enlargement

1995/0812(CNS) - 12/07/1995 - Text adopted by Parliament, 1st reading/single reading

The European Parliament adopted the report by Mr Rolf LINKHOR (PSE, D). It accepted the Commission's proposal increasing the financial envelope for the fourth framework programme from the ECU 12.3 billion fixed in April 1994 (ECU 11 046 million for the EC and ECU 1 254 million for Euratom) to ECU 13.161 billion (ECU 11 819 million for the EC and ECU 1 342 million for Euratom). With regard to the supplementary financing of ECU 700 million, which should be dealt with in a decision in June 1996 at the latest, the European Parliament felt that this should also be adjusted following enlargement by applying the same 7% rise, thus increasing it to ECU 749 million. In allocating this sum, the distribution envisaged between EC programmes and Euratom programmes should be respected. To achieve greater equilibrium, the EP also proposed a small adjustment to the suggested reference envelopes for financing the first instalment (1995-96) and second instalment of the fourth framework programme.

Euratom Framework Programme research and training 1994-1998: adjustment of funding following the 1995 enlargement

1995/0812(CNS) - 09/06/1995

Following from the trialogue of 29 November 1994 on adapting the financial perspective to take account of enlargement, the Commission proposed an automatic across-the-board increase of 7%. The Presidency noted that the Council - was in broad agreement on the need for an early decision based on an across-the-board increase in both programmes; - warmly welcomed the Commission’s commitment to concentrate the increase on research actions proper; any increase in administrative costs should therefore be limited and properly justified; - stressed that it was imperative that such a decision comply with the financial perspective, in particular heading 3, and not prejudice decisions to be taken later on the possible additional financing provided for in the framework programmes and due to be examined in due course.

Euratom Framework Programme research and training 1994-1998: adjustment of funding following the 1995 enlargement

1995/0812(CNS) - 30/11/1995

Within the framework of the codecision procedure with Parliament, the Council formally adopted its common position on the adaptation of the EC research framework programme following the accession to the European Union of Austria, Finland and Sweden . It also confirmed its agreement on the Decision relating to the adaptation, for the same reasons, of the Euratom framework programme. In concrete terms the Council, as agreed at the Research Council meeting on 30 October 1995 (see Press Release 11167/95, Presse 302), decided to increase the overall amount for the framework programmes by 6.5%. That overall percentage results from applying a 6.87% increase to research projects and a maximum average 4% increase to the relevant staff and management costs. The result is a total increase of ECU 718 million for the EC programme. As the Euratom framework programme was increased by ECU 82 million, the total increase is ECU 800 million.
