Regulation 1997/1422
OJ L 196 24.07.1997, p. 0018 Summary

Support system for producers of certain arable crops: more flexible penalties (amend. Regul. 1765/92/EEC)

1996/0167(CNS) - 17/09/1996

OBJECTIVE: amending Regulation (EEC) No 1765/92 in order to ensure a proper balance between supply and demand for durum wheat at a reasonable cost by limiting the compensatory aid additional expenditure on durum wheat to a maximum area. SUBSTANCE: the measures envisaged should only be aimed at guaranteeing the appropriate use of areas sown to durum wheat. To ensure this result, the following action is proposed: 1). the fixing of a guaranteed maximum area per producer Member State, to be allocated, if appropriate, between the various traditional production areas eligible for the compensatory amount supplement (ECU/ha 358.6) and the areas eligible for reduced specific aid (ECU/ha 138.9). The determination of these guaranteed maximum areas would be based on aid applications submitted since the introduction of the reform, in the light of the best year for each Member State; 2). making it mandatory to use certified seed (which would be introduced gradually over a period of three years); 3). measures to ensure a level of production corresponding to the areas sown.

Support system for producers of certain arable crops: more flexible penalties (amend. Regul. 1765/92/EEC)

1996/0167(CNS) - 13/12/1996 - Text adopted by Parliament, 1st reading/single reading

In adopting the report by Mr David HALLAM (PSE, UK), Parliament approved the proposal to amend the support system for producers of certain arable crops. It considered it necessary to delete extraordinary set-aside and therefore adopted an amendment to that effect.

Support system for producers of certain arable crops: more flexible penalties (amend. Regul. 1765/92/EEC)

1996/0167(CNS) - 25/06/1996 - Legislative proposal

OBJECTIVE: The aim of the proposal for a Council Regulation is to make the system of penalties applied when the base area is exceeded more flexible and to introduce the possibility of sub-base areas being created in a national base area. SUBSTANCE: Firstly, the proposal is intended to exempt Member States from financial penalties arising from overshoots that are the consequence of exceptional weather conditions. That measure will apply from the 1995 harvest and concerns overshoots noted in Spain. The cost of this measure for 1996 is ECU 143.6 million. Secondly, the proposal authorizes Member States that opt to create one or more national base areas, possibly subdivided into sub-base areas, to concentrate any penalties partially or entirely on one or more of those sub-base areas, provided that such redistribution does not lead to an overall reduction in the national penalty.

Support system for producers of certain arable crops: more flexible penalties (amend. Regul. 1765/92/EEC)

1996/0167(CNS) - 22/07/1997 - Final act

OBJECTIVE: to amend Regulation 1765/92/EEC establishing a support system for producers of certain arable crops - penalties. COMMUNITY MEASURE: Council Regulation (EC) No 1422/97. CONTENT: the amendments introduced by the Council seek to: - extend the current exemption from penalties arising as the consequence of exceptional weather conditions by granting total or partial exemption from reductions in aid granted for arable crops to the producers affected; - authorise Member States to concentrate penalties applicable to overshoots of national base areas partially or entirely on one of the sub-base areas in which the overshoot occurred. ENTRY INTO FORCE: 31 July 1997.
