Final act

Directive 1996/0090
OJ L 013 16.01.1997, p. 0024 Summary

Health problems: requirements for trade in and imports of products non covered by direct. 89/662/EEC and 90/425/EEC

1996/0197(CNS) - 17/12/1996 - Final act

OBJECTIVE: Amending Council Directive 92/118/EEC with a view to simplifying certain provisions relating to imports. COMMUNITY MEASURE: Council Directive 96/90/EC amending Directive 92/118/EEC laying down animal health and public health requirements governing trade in and imports into the Community of products not subject to the said requirements laid down in specific Community rules referred to in Annex A(I) to Directive 89/662 /EEC and, as regards pathogens, to Directive 90/425/EEC. SUBSTANCE: The amendment adopted seeks to waive the obligation to draw up, with a view to imports into the Union, of Community lists of establishments of third countries for ungulate skins and hides, for bones and products thereof, not intended for animal or human consumption, apiculture products, game trophies, manure, wool and feathers, and honey, it being sufficient to ensure that the establishment has been registered by the competent authority in the third country. DATE OF ENTRY INTO FORCE: 16 January 1997. DEADLINE FOR TRANSPOSITION: 1 July 1997.

Health problems: requirements for trade in and imports of products non covered by direct. 89/662/EEC and 90/425/EEC

1996/0197(CNS) - 24/07/1996 - Legislative proposal

OBJECTIVE: amending Council Directive 92/118/EEC with a view to simplifying certain provisions relating to imports. SUBSTANCE: Directive 92118 /EC provides, in the case of imports of products covered by the Directive, for the drawing-up of Community lists of establishments of third countries. It would appear, by virtue of the lack of effect on human or animal health, that the preparation of such lists is not warranted for products such as ungulate skins and hides, bones, horns, hooves and products thereof, not intended for animal or human consumption apiculture products, game trophies, manure, wool, hair, bristles and feathers, and honey. It is therefore proposed, with a view to simplification, that the need for such lists should no longer be required. In the case of certain other products, it is proposed that the obligation to draw up a list of establishments should also be waived for third countries whose entire production complies with Community requirements. Furthermore, it is proposed that the task of laying down health conditions applicable to the meat of reptiles and species not covered by specific requirements should be delegated to the Commission (after consultation with the Standing Veterinary Committee).

Health problems: requirements for trade in and imports of products non covered by direct. 89/662/EEC and 90/425/EEC

1996/0197(CNS) - 27/11/1996 - Economic and Social Committee: opinion, report

The Committee has, in principle, no objections to simplifying this somewhat confused directive. The ESC feels, however, that the proposed simplification should not cover unprocessed fowl manure. A Community list must be retained for this type of manure, since it carries a considerable risk of spreading disease (salmonella, avian influenza and Newcastle disease).

Health problems: requirements for trade in and imports of products non covered by direct. 89/662/EEC and 90/425/EEC

1996/0197(CNS) - 25/10/1996 - Text adopted by Parliament, 1st reading/single reading

Parliament approved the proposal.
