Agricultural prices 1997/1998: premiums for leaf tobacco

1997/0101(CNS) - 14/03/1997 - Legislative proposal

Agricultural prices 1997/98 - tobacco The Commission recently submitted a report on the operation of the common organization of the market in the tobacco sector which put forward some ideas concerning the future of the system. Following discussion of these ideas proposals will be made which should enter into force from the 1998 harvest, seeking to implement a fundamental reform of the sector. The key element for the future of the sector is the improvement of the quality of the product which will necessarily require a substantial modification to the provisions on the premium, i.e. to make a significant part of the premium dependent on the quality of the tobacco determined by its market price. For the 1997 harvest it should be stressed that the guarantee thresholds (quotas) had already been set by the Council some time earlier. The Commission proposes maintaining the premium at the same level as in 1996 for each of the eight groups of varieties.

1997/0101(CNS) - 28/05/1997

The Committee feels that the monthly increases under the intervention system should be frozen at current levels, rather than decreased. It firmly rejects the proposal to use the Guarantee Fund to finance BSE measures. The Committee considers the reasoning behind the reductions in the flax and hemp sector to be irrelevant, and thus rejects the reductions. The Committee highlights the serious crisis in the rice sector, and calls for the monthly increases to be left unchanged. It calls on the Commission to provide an analysis of the impact of current and future price packages on consumer prices, food quality, health, the environment and rural communities. The Committee calls for an analysis of the employment impact of income trends and of future proposals.
