## Bivalve molluscs: reference laboratories for monitoring bacteriological and viral contamination

1997/0182(CNS) - 29/04/1999 - Final act

**PURPOSE:** to improve the system for monitoring viral and bacteriological contaminations of bivalve molluscs. **COMMUNITY MEASURE:** Council decision 1999/313/EC on reference laboratories for monitoring bacteriological and viral contamination of bivalve molluscs. **CONTENT:** in order to ensure an effective monitoring system with regard to virus testing and the establishment of standards for viral and bacteriological contamination, the decision provides for the designation by each Member State of a national reference laboratory for monitoring viral and bacteriological contaminations of bivalve molluscs, responsible for coordinating the implementation of the necessary analyses. In order to ensure a standardised system throughout the Community, the laboratory of the Centre for Environment, Fisheries and Aquaculture Science at Weymouth in the United Kingdom, is designated as the Community reference laboratory. This laboratory, the tasks and operating conditions of which are specified, will be responsible for coordinating the analyses carried out by each national reference laboratory. **ENTRY INTO FORCE:** 08/05/1999.

## Bivalve molluscs: reference laboratories for monitoring bacteriological and viral contamination

1997/0182(CNS) - 13/04/1999 - Text adopted by Parliament after reconsultation

The European Parliament approved without debate the report by Kenneth D. Collins (PSE,UK), which rejects the proposed change of legal basis of the proposal for a European Parliament and Council decision on reference laboratories for monitoring bacteriological and viral contamination of bivalve molluscs.

## Bivalve molluscs: reference laboratories for monitoring bacteriological and viral contamination

1997/0182(CNS) - 01/10/1997 - Economic and Social Committee: opinion, report

The Committee approves the Commission proposal.

## **Bivalve molluscs: reference laboratories for monitoring bacteriological and viral contamination**

1997/0182(CNS) - 17/09/1997 - Text adopted by Parliament, 1st reading/single reading

Parliament approved the proposal (procedure without debate).

## **Bivalve molluscs: reference laboratories for monitoring bacteriological and viral contamination**

1997/0182(CNS) - 25/06/1997 - Legislative proposal

**OBJECTIVE:** the proposal for a Decision aims to develop new types of checks for viral and bacteriological contamination of bivalve molluscs.

**SUBSTANCE:** in order to ensure an effective virus monitoring system, the Decision lays down that a national reference laboratory is to be designated in each Member State to coordinate the performance of the required analyses. In order to ensure a standard inspection system in the Community, the laboratory of the Centre for Environment, Fisheries & Aquaculture Science, in Weymouth (United Kingdom), is to be designated as the Community reference laboratory, responsible for coordinating the inspections for bacteriological and viral contamination of bivalve molluscs carried out by each national reference laboratory. The proposal lays down the responsibilities of the Community reference laboratory and the conditions for its work; the laboratory's management is to undertake to carry out the responsibilities laid down in the Decision.
