Customs 2000: action programme for Community

1997/0228(COD) - 03/09/1997 - Legislative proposal

OBJECTIVE: provide additional financing for the IDA programme (programme for the exchange of information between Community administrations) for the period 1998-2000, in view of the fact that its budget has been incorporated into that of the Customs 2000 programme since 1997. SUBSTANCE: the proposal for a decision is intended solely to make appropriate supplementary financing for IDA projects in the customs sector for the period 1998-2000 coinciding with the period of funding for the Customs 2000 programme (1996-2000). ECU 85 million is currently earmarked for this purpose.

Customs 2000: action programme for Community

1997/0228(COD) - 10/12/1997 - Economic and Social Committee: opinion, report

The ESC supports the Commission's proposal and particularly underlines the establishment of a New Computerized Transit System and the facilities for the exchange of harmonized data between the Member States and the Commission, in line with the internationally recognized UN/EDIFACT system. Given the indicative nature of the figures for funding the ESC also requests that it be given annual reports on the targeting and the effectiveness of funding.
