Final act
Regulation 1997/2596 OJ L 351 23.12.1997, p. 0012 Summary

Agriculture, 1995 enlargement: extension of transitional measures

1997/0271(CNS) - 18/12/1997 - Final act

OBJECTIVE: to extend for Austria, Finland and Sweden the period during which transitional measures may be adopted in the field of agriculture (especially in the dairy sector for Sweden and Finland). COMMUNITY MEASURE: Council Regulation (EC) No 2596/97 extending the period provided for in Article 149 (1) of the Act of Accession of Austria, Finland and Sweden. SUBSTANCE: The Regulation extends until 31.12.1998 the period during which transitional measures may be adopted to facilitate the transition from the regime existing in Austria, Finland and Sweden at the time of accession to those resulting from the application of the common organization of the market. The Regulation also lays down that, with regard to the fat content of milk for human consumption in Finland and Sweden, this period shall be extended by two years to 31.12.1999. ENTRY INTO FORCE: the Regulation enters into force on 01.01.1998.

Agriculture, 1995 enlargement: extension of transitional measures

1997/0271(CNS) - 24/10/1997 - Legislative proposal

OBJECTIVE: to extend by one year, for Austria, Finland, and Sweden, the period during which transitional measures may be taken. SUBSTANCE: Article 149, paragraph 1, of the Act of Accession of Austria, Sweden and Finland makes provision for a period during which the Commission may adopt transitional measures to facilitate the changeover from the existing agricultural regime in these three Member States to that resulting from application of the common organization of markets (particularly where application of the new measures, in the case of certain products, encounters substantial difficulties). This period expires on 31 December 1997. Since difficulties remain or are likely to persist in certain sectors, the Commission is proposing to extend this period by one year, until 31 December 1998. As far as Austria is concerned, the transitional measures in question mainly concern the delimitation of the wine-growing area for the application of certain oenological practices and treatments.
