Decision 1999/0224
OJ L 083 27.03.1999, p. 0050 Summary

EC/Israel agreement: scientific and technical cooperation agreement for the duration of the 5th framework programme

1998/0241(CNS) - 22/02/1999 - Final act

PURPOSE: to renew the agreement of scientific and technical cooperation between the European Community and the State of Israel for the duration of the 5th framework programme for RTD. COMMUNITY MEASURE: Council decision 1999/224/EC concerning the conclusion of the Agreement of scientific and technical cooperation between the European Community and the State of Israel. CONTENT: By decision 96/505/EC, the Council concluded an agreement concerning scientific and technical cooperation between the Community and Israel, which entered into force 06/08/96 (CNS96134). This agreement associated Israel with all non-nuclear specific programmes of the 4th framework programme for RTD on the basis of mutual interest. The purpose of the current decision is to continue the cooperation fruitfully undertaken between these parties into the 5th framework programme for RTD. The period covered by this cooperation is therefore that of the framework programme, from 1998-2002. The agreement is financed, on the part of the Community, is funded through the EC budget for the 5th framework programme. For its part, Israel's financial participation will be determined in proportion to its GDP compared with that of the Union's Member States together with that of Israel. ENTRY INTO FORCE: the agreement will enter into force on the date on which the parties notify each other of the completion of the procedures necessary for this purpose.

EC/Israel agreement: scientific and technical cooperation agreement for the duration of the 5th framework programme

1998/0241(CNS) - 17/07/1998 - Legislative proposal

OBJECTIVE: to renew the scientific and technological cooperation agreement between the Community and Israel for the period of the Fifth Framework Programme of R&TD. SUBSTANCE: By means of its decision 96/505/EC of 25.07.1996, the Council concluded an agreement for scientific and technological cooperation between the Community and Israel, which entered into force on 06.08.1996 (CNS96134). It may be recalled that this agreement associated Israel with all the specific non-nuclear programmes in the Fourth Framework Programme of research and technological development on the basis of common interest. The aim of the proposal is to continue the fruitful cooperation between the parties in the future Fifth Framework Programme of R&TD. The period covered by the cooperation is thus the same as that of the Framework Programme, i.e. 1998-2002. The agreement will be financed, on the Community side, from the Community budget for the Fifth Framework Programme. Israel will participate financially in proportion to its GDP as compared with that of the Member States of the Union plus that of Israel (the financial statement indicates, after calculation, that Israel's participation could be in the region of EUR 160 million over the whole of the period concerned, while the cost to the Community will be of the order of EUR 380 000 per annum, or EUR 1.5 million over the whole period).

EC/Israel agreement: scientific and technical cooperation agreement for the duration of the 5th framework programme

1998/0241(CNS) - 11/02/1999 - Text adopted by Parliament, 1st reading/single reading

MEPs voted to endorse the agreement for scientific and technical co-operation between the EU and Israel without amendment. Parliament's Rapporteur was Ms. Godelieve QUISTHOUDT-ROWOHL (PPE, D).
