Regulation 2000/1363
OJ L 156 29.06.2000, p. 0001 Summary

Agricultural prices 2000/2001: sugar price, standard quality of beet

2000/0047(CNS) - 19/06/2000

Following discussion of Commission proposals on setting prices for agricultural products the Council adopted the Regulations concerning sugar (by a qualified majority) and pigmeat (see Annex I) since they were urgent, and noted that there were problems with the other products; it agreed to resume consideration of this subject at its next meeting. The Spanish delegation regretted that no solution had been found as regards its repeated request for a support system for nuts, during the current discussion of agricultural prices for the 2000/2001 marketing year.

Agricultural prices 2000/2001: sugar price, standard quality of beet

2000/0047(CNS) - 16/05/2000 - Text adopted by Parliament, 1st reading/single reading

The European Parliament adopted the report drafted by Elisabeth Jeggle (EPP/ED, Germany) on the farm-price package for 2000/2001. It amended the Commission's proposal fixing certain sugar prices and the standard quality of beet by stating that the additional costs of EU foreign policy should not be financed from the sugar sector alone nor from the agricultural sector alone. The Commission must present a proposal for the revision of the common market organisation of the sugar sector before the Council takes a decision on the agricultural prices for the 2000/2001 marketing year.

Agricultural prices 2000/2001: sugar price, standard quality of beet

2000/0047(CNS) - 29/02/2000 - Legislative proposal

PURPOSE: the setting of certain sugar prices and the standard quality of beet for the 2000/2001 marketing year. CONTENT: As a result of the decisions on Agenda 2000 in May 1999 and the reforms of the common market organisations (CMOs) since 1992, the yearly fixing of institutional prices and amounts now affects only a few sectors. This is the last marketing year of the current production quota regime and the Commission is proposing that the basic price for beet, the intervention price for white sugar and the manufacturing margin be frozen. The minimum prices for A beet and B beet therefore remain unchanged (they are derived for the basic price for beet by applying a levy of 2% and 30% respectively). However, tha actual minimum price for B beet will ultimately depend on the final rate of the levy on B beet to be fixed later by the Management Committee procedure (in accordance with Art. 33 of Regulation 2038/99/EC). The Commission is proposing that the amount of the monthly reimbursement of storage costs be kept at EUR 0.33 per 100 kg in view of the stable interest rates prevailing in the Community. The Commission notes that, in accordance with Art. 26 of the basic Regulation, it may have to reduce the production quotas for the 2000/2001 marketing year if the GATT constraints so require. The change in appropriation requirements compared to those on which the budget was based is +EUR 30 million. The increase of EUR 30 million results from a slight downward revision to the forecast world market price for sugar for 1999/2000 to $187/tonne and a consequent increase in the rate of export refund from EUR 525/tonne to EUR 535/tonne. The proposal also updates the committee procedures into line with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission.

Agricultural prices 2000/2001: sugar price, standard quality of beet

2000/0047(CNS) - 19/06/2000 - Final act

PURPOSE: to fix certain sugar prices and the standard quality of beet for the 2000/2001 marketing year. COMMUNITY MEASURE: Council Regulation 1363/2000/EC fixing certain sugar prices and the standard quality of beet for the 2000/2001 marketing year. CONTENT: The Council formally adopted the Regulation on the fixing of certain sugar prices and the standard quality of beet. For the last marketing year of the current production quota regime, the basic price for beet, the intervention price for white sugar and the manufacturing margin are frozen. Consequently, the minimum prices for A beet and B beet remain unchanged (they equal 98% and 68% of the basic price respectively). However, it should be noted that the actual minimum price for B beet will ultimately depend on the final rate of the levy on B beet, which will be fixed later by the Management Committee procedure (in accordance with Article 33 of Regulation 99/2038/EC). The reimbursement of storage costs will be kept at EUR 0,33 per 100 kg. ENTRY INTO FORCE: This Regulation shall enter into force on 02.07.2000 and shall apply for the 2000/2001 marketing year.
