Final act

Directive 2002/0033
OJ L 315 19.11.2002, p. 0014-0020 Summary

Health requirements for animal by-products

2000/0230(COD) - 20/11/2001 - Council position

The Council fully accepts the principle of the Parliament's proposed amendments: that the two acts should take effect as soon as practicable. It believes that the Regulation should apply, and the implementation of the Directive should have to be completed, six months after their entry into force. The common position adopted by the Council with a view to the adoption of the Directive would therefore require Member States to implement the provisions of the Directive by the date of application of the Regulation. There is also a new provision, which makes it clear that Member States can regulate the importation and placing on the market of products for which the Annexes to the Regulation contain no rules. The similar rule in Article 3 of Directive 92/118/EEC is no longer necessary. The common position would restrict its scope to products of animal origin intended for human consumption.

Health requirements for animal by-products

2000/0230(COD) - 19/10/2000 - Legislative proposal

PURPOSE : to present a proposal which amends Council Directives 90/425/EEC and 92/118/EEC as regards health requirements for animal by-products. CONTENT : the animal and public health conditions for the processing and disposal of animal waste and for the production, placing on the market, trade and importation of products of animal origin not intended for human consumption are laid down in a number of different Council Directives and Decisions and Commission Decisions. The rules contained in those Directives and Decisions have been replaced by Regulation.../... of the European Parliament and of the Council laying down the health rules concerning animal by-products not intended for human consumption. Directives 90/425/EEC and 92/118/EEC must therefore be amended accordingly. This is the scope of this Directive.

Health requirements for animal by-products

2000/0230(COD) - 13/03/2002 - Text adopted by Parliament, 2nd reading

The European Parliament adopted the resolution by Mrs Marit PAULSEN (ELDR, S) approving the common position without amendment.

Health requirements for animal by-products

2000/0230(COD) - 27/11/2001 - Commission communication on Council's position

The Commission supports the Council's common position.

Health requirements for animal by-products

2000/0230(COD) - 12/12/2001 - Modified legislative proposal

The Commission fully accepts the one Parliamentary amendment proposed, namely an earlier date on entry into force of the Directive.

Health requirements for animal by-products

2000/0230(COD) - 21/10/2002 - Final act

PURPOSE : to amend Council Directives 90/425/EEC and 92/118/EEC as regards health requirements for animal by-products. COMMUNITY MEASURE : Directive 2002/33/EC of the European Parliament and of the Council amending Council Directives 90/425/EEC and 92/118/EEC as regards health requirements for animal by-products. CONTENT : to recall, numerous Community acts lay down animal and public health conditions for the processing and disposal of animal waste, trade and importation of products of animal origin not intended for human consumption. Regulation 1774 /2002/EC of the European Parliament and of the Council of 3 October 2002 laying down the health rules concerning animal by-products not intended for human consumption has replaced the rules contained in those acts. To take account of those new rules, Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market and Council Directive 92/118/EEC of 17 December 1992 laying down animal health and public health requirements governing trade in and imports into the Community of products not subject to the said requirements laid down in specific Community rules referred to in Annex A(I) to Directive 89/662/EEC and, as regards pathogens, to Directive 90/425/EEC, are be amended. Member States shall bring into force the laws, regulations and administrative provisions necessary to comply with this Directive in 30 April 2003. ENTRY INTO FORCE : 19 November 2002.

Health requirements for animal by-products

2000/0230(COD) - 12/06/2001 - Text adopted by Parliament, 1st reading/single reading

In adopting the report presented by Marit PAULSEN (ELDR, S), (please refer to previous doculent) the European Parliament welcomed that these various acts be replaced by a single new directive, but adopted the one amendment proposed by the rapporteur, namely that the directive should take effect at the same time as the proposed regulation on animal by-products intended for human consumption i.e. 1 January 2002 instead of 1 February 2003.
