[Summary](#)

Support for pre-accession measures for agriculture and rural development in the applicant countries of Central and Eastern Europe in the pre-accession period

2002/0227(CNS) - 11/03/2003 - Text adopted by Parliament, 1st reading/single reading

The European Parliament adopted a resolution drafted by Xaver MAYER (EPP-ED, Germany) and made some amendments to the Commission's proposal. (Please refer to the document dated 17/02/03).

Support for pre-accession measures for agriculture and rural development in the applicant countries of Central and Eastern Europe in the pre-accession period

2002/0227(CNS) - 14/04/2003 - Final act

PURPOSE : to enable the Community to help restore rural areas following exceptional natural disasters in the applicant states. **COMMUNITY MEASURE** : Council Regulation 696/2003/EC amending Regulation 1268/1999/EC on Community support for pre-accession measures for agriculture and rural development in the applicant countries of Central and Eastern Europe in the pre-accession period. **CONTENT** : in mid-August 2002 considerable damage was caused in various candidate countries by floods in their rural areas. This Regulation will enable the Community to respond appropriately to such exceptional natural disasters whenever they occur in candidate countries, using the SAPARD instrument set up under Council Regulation 1268/1999/EC. No special provision is included in that Regulation for actions to help restore rural areas following exceptional natural disasters. Appropriate action by the Community in the wake of such disasters is needed. These events place a considerable economic burden on the affected parties both in the public and private sectors and coincide with the preparation for accession. This Regulation provides for increases both in the rate of Community assistance and in the normal ceilings on aid intensities: - for relevant projects following exceptional natural disasters the Community contribution may amount to up to 85 % of the total eligible public expenditure; - for revenue generating investments, public aid may amount up to 75 % of the total eligible cost of which the Community contribution may amount to up to 85 % of the public aid. **ENTRY INTO FORCE** : 20/04/03.

Support for pre-accession measures for agriculture and rural development in the applicant countries of Central and Eastern Europe in the pre-accession period

2002/0227(CNS) - 18/09/2002 - Legislative proposal

PURPOSE : to present a proposal which aims to amend Regulation 1268/1999/EC on Community support for pre-accession measures for agriculture and rural development in the applicant countries of Central and Eastern Europe in the pre-accession period. **CONTENT** : in mid August 2002 considerable damage was caused inter alia in various candidate countries by floods. The Czech Republic and Slovakia in particular were badly affected. The Community needs to be able to respond appropriately to such exceptional natural disasters whenever they occur in candidate countries through various instruments including the pre-accession SAPARD instrument set up under Council Regulation 1268/1999/EC. The scope of the SAPARD instrument does not however have any specific provisions relating to actions taken in the wake of natural disasters. However, the Commission considers that actions to help to restore rural areas following exceptional natural disasters can be considered as falling within the scope of SAPARD and that consequently specific provisions should be made for such an action within Regulation 1268/1999/EC. In view of the Commission, the appropriate action is to increase the ceiling on public aid from 50% to 75%, and the Community contribution from 75% to 85% of public aid, for relevant projects in areas affected by exceptional natural disasters.
