## **Motor vehicles: burning behaviour of materials used in the interior construction, UN//ECE Regulation**

2003/0247(AVC) - 21/04/2004 - Text adopted by Parliament, 1st reading/single reading

The European Parliament adopted the resolution drafted by Luis BERENGUER FUSTER (PES, E) giving its assent to the United Nations Economic Commission for Europe on uniform technical prescriptions concerning the burning behaviour of materials used in the interior construction of certain categories of motor vehicles.

## **Motor vehicles: burning behaviour of materials used in the interior construction, UN//ECE Regulation**

2003/0247(AVC) - 24/10/2003 - Initial legislative proposal

PURPOSE : to enable the Commission representative to vote on behalf of the Community on uniform prescriptions on tyre rolling noise at a meeting of the United Nations Economic Commission for Europe (UN/ECE) World Forum for Harmonisation of Vehicle Regulations. PROPOSED ACT : Council Decision. CONTENT : by Council Decision 97/836/EC the European Community became a Contracting Party to the 1958 Revised Agreement of the United Nations Economic Commission for Europe (UN/ECE). Article 4 of that Decision stipulates that where a draft Regulation of the UN/ECE is submitted to a vote within the appropriate UN/ECE bodies, the draft in question must be approved by the Council, after obtaining assent from the European Parliament, before the Community can declare itself in favour of adopting the draft. The agenda of a forthcoming meeting of the World Forum for Harmonisation of Vehicle Regulations of the UN/ECE includes a vote on a draft Regulation on uniform prescriptions concerning the type approval of tyres with respect to tyre rolling noise. The main purpose of the Regulation is to establish harmonised technical prescriptions, thereby avoiding the creation of technical barriers to trade in motor vehicles between the Contracting Parties, while ensuring a high level of safety and environmental protection. The purpose of this proposal is to enable the Commission representative to vote on the draft Regulation on behalf of the Community at a forthcoming meeting of the UN/ECE World Forum for Harmonisation of Vehicle Regulations. The Regulation will not be incorporated into the Community system for the type-approval of motor vehicles.

## **Motor vehicles: burning behaviour of materials used in the interior construction, UN//ECE Regulation**

2003/0247(AVC) - 21/01/2004 - Legislative proposal

This proposal for a Council Decision aims to set out the position of the European Community on the draft Regulation of the United Nations Economic Commission for Europe on uniform technical prescriptions concerning the burning behaviour of materials used in the interior construction of certain categories of motor vehicles.
